[COPY OF CERTIFICATE]

#### THE COMMONWEALTH OF PENNSYLVANIA

DEPARTMENT OF ACRICULTURE

#### Certificate of Inspection of Nursery Stock No. 298.

This is to certify that the stock in the nursery of Thomas Meehan & Sons, Inc., of Dreshertown, County of Montgomery, State of Pennsylvania, was duly examined in compliance with the provisions of the Act of Legislature of Pennsylvania, approved the 10th day of June, A. D., 1901, and it was found to be apparently free from San Jose Scale and other dangerously injurious insect pest or pests.

This Certificate expires July 31, 1904.

Dated Harrisburg, Pa., August 11, 1903.

GEO. C. BUTZ, Inspector.

Secretary of Agriculture

N. B. Critchfield

#### SPECIAL NOTICE

Our nurseries have been carefully inspected and no trace of scale or other injurious insects found. For the benefit of customers, however, who wish stock fumigated, we have erected a fumigating house, and when requested to do so will fumigate shipments before packing.

This will be done, however, entirely at the risk of purchaser.

Long Distance Telephone, 26 Ft. Washington, Pa.
Telegraph Office, Ambler, Pa.
Adams Express and Freight Office, Dresher, Montg. Co., Pa.

This Catalogue takes the place of all previous issues

# Important! Please Read!

CUSTOMERS are requested to state the mode of conveyance by which they desire their trees forwarded. When no route is named we forward to the best of our judgment; but in no case do we assume any responsibility after the goods are shipped, unless for our own mistakes.

TERMS CASH, on or before delivery to express or railroad agents, unless by special arrangement.

TWO HUNDRED AND FIFTY, twenty-five and five will be furnished at the thousand, hundred and ten rates respectively.

PACKING CHARGED EXTRA, but only sufficient to cover cost of time and material.

Post-Office Orders payable at Dreshertown, Montgomery Co., Pa.

Telegraph Office, Ambler, Pa.

OUR DESCRIPTIVE CATALOGUE is complete and will be sent to all applicants.

VISITORS are always welcome and should take train at the Reading Terminal, 12th and Market Streets, Philadelphia, for Camp Hill Station, or at Broad Street Station, Pennsylvania R. R., for Fort Hill Station. Be sure that the train you take stops at these stations.

NOTICE.—It is necessary that you should Telephone us (26 Fort Washington) in advance of your coming, so that we can send a carriage to the station for you. Our office is 2½ miles from either station.

PIN OAK

PRIVET HEDGE

Tree and Shrub Seeds. We issue a special catalogue of these. It will be mailed on application.

## DECIDUOUS TREES.

"Trans." signifies the stock has been once or more transplanted.
"Seed." that it is still in Seedling Beds.

APThe Acer Ginnale is a good dwarf bushy variety; excellent for massing. Leaves beautiful color in fall.

#### JAPANESE MAPLES.

\*\*Note that some of our Japanese Maples are pot-grown. This makes transplanting almost certain of success. They can be shipped, in the summer if required. We grow all our own Japanese Maples, and they are very much more healthy and superior to imported plants. the latter are nearly always sickly, ill-shaped and poorly rooted.

# The Nursery Book A Complete Guide to the Propagation of Trees, Shrubs, Evergreens, etc. BY PROF. H. L. BALLEY

A standard work of reference simply essential to every nurseryman. Reprinted for the sixth time. It is thoroughly practical and describes fully and clearly the processes of budding, grafting, seed-sowing, etc., as well as many other important items of nursery work, with convenient indexes etc.

indexes, etc.

The Nursery List (an alphabetical catalogue of about 1,500 plants, with directions for their multiplication) is especially valuable.

Sixth Edition, \$1.00. 365 pages. 162 Illustrations

### DECIDUOUS SHRUBS.

- "Trans." indicates that the plant has been once or more transplanted.
- "Seed." that it is still in seedling beds, not transplanted.

The Aralias are especially useful for massing and the character of the foliage creates a tropical effect. The large heads of yellowish-white flowers in August are quite conspicuous.

Aronia. See Pyrus arbutifolia, page 18.
Azalea ameena, Evergreen Azalea.

10 in. bushy f

10 in. bushy from pots 4 00 35 00

We call especial attention to our large stock of Azalea amona, one of the finest small-sized evergreen shrubs in cultivation. It does not transplant very freely when dug from the open ground, hence we grow ours all in pots, and when shipping them they are packed so that the ball is not broken. This is a distinct advantage to the planter.

We have the largest stock of native Cratagus in the country. They are all good, bushy plants—excepting the seedlings—and, having been recently transplanted, they are well rooted.

#### LIGUSTRUM OVALIFOLIUM (California Privet).

As usual, we have a very large stock of this valuable hedge plant. Our 1 to 2 feet 1 year plants have one, two and three stems per plant; the 2 to 2½ feet run 3 to 5 stems per plant; the sizes above these are all very bushy, and the entire stock is well rooted. Our sales of Privet increase each year. Sales last year aggregated 200,000 plants. We are recognized as headquarters for this plant. See prices, page 18.

All our Roses are transplanted, bushy plants. These native Roses are excellent for mass planting, and by mixing the sorts a continuous flowering effect can be produced.

# EVERGREENS.

\*All of our evergreens have been once or more transplanted. The larger sizes several times, and the choice varieties we move in a period not exceeding two years. These choice varieties are all dug with a ball of earth and the ball sewed in a mat. This makes transplanting almost an assured success. Our evergreens should not be confused with the low-priced plants frequently offered. We move them constantly in order to secure a good root growth, and they are less liable to loss when shipped.

These Pyramidal Arbor-Vitæ are extra fine plants, several times sheared and trans. planted. They would be dug with a ball and the ball sewed in burlap. insuring success in transplanting. If customers do not care to have them with a ball, they will be supplied at 10c. per tree less than prices quoted, but this will not be done unless expressly stated in the

order. Specimen Rhododendron. Large bushy plants, transplanted last spring. Each plant dug with a ball. Thuja occidentalis Hoveyii, Globe, heavy, 12 to 15 in, trans. 2 50 Geo. Our stock of Azalea Mollis and Pontica is very large and fine. The plants were all transplanted last spring and will now dig with a ball. They are very bushy plants and, being well set with flower buds, they will make a very effective planting. The price indicates the bushiness of the plant as well as the height.

The Mollis are mostly in shades of red and yellow, but the Ponticas are in all colors.

For sizes and prices see page 13.

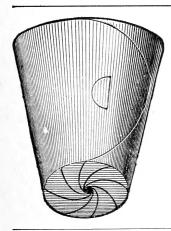

### The Best Nursery Spade

#### D Handle, Double Strap, Reinforced Nursery Spade. Weight. 91/4 lbs.

We have experimented with a number of different makes of nursery spades, but find this to be the strongest, best and most durable on the market. We have been using this spade for a number of years and it will stand more hard work than any other make It is strapped full length of handle both back and front, and half way up it has double straps, strengthening it in what would otherwise be its weakest parts.

Price, \$1.75 each; \$20.00 per dozen.

#### Neponset Flower Pots

#### UNBREAKABLE, LIGHT, ECONOMICAL

Plants and Cuttings packed for shipment in our Neponset Flower Pots have a better protection than when wrapped in papers.

A great saving in freight is made over clay pots, weighing only one-tenth as much and no breakage. Made from the celebrated Nepouset paper, which is absolutely waterproof They are so constructed as to give ample drainage and allow plenty of air to the roots of the plant.

Send for sample and prices on seven different sizes, and compare with clay pots.

# Read "The National Nurseryman,"

The Official Journal of the American Association of Nurserymen.

A monthly Trade Publication devoted exclusively to the interests of the Growers and Dealers in Nursery Stock. For ten years it has recorded the news of the Trade exclusively.

Newspapers, magazines and periodicals of many kinds come to the business man's desk, but life is short and time is money. The journal that starts right in at the first page and deals directly and exclusively to the last page with the NURSERY BUSINESS is the one that richly repays the reading

Ten years ago nurserymen were dependent upon agricultural and a few horticultural publications for an occasional mention of a nursery item of news. Now they have their own trade journal thoroughly covering the field. Information in a single issue has often proved of greater value than a year's subscription.

Subscription price, \$1.00 per year.

The National Nurseryman Publishing Company, Incorporated,

205 Cox Building, Rochester, N. Y.

# FRUIT STOCKS & SEEDS

The supply of both fruit stocks and seeds is exceedingly short this year, and we advise our customers to place early orders for what they

will require. Packing charges additional.

Conditions.—All offers and acceptances of orders are subject to our receiving the full quantity for which we have placed orders with our growers and collectors. Failing to get these amounts, we reserve the right to reduce proportionately all orders that have been booked.

**Guarantee.**—While we try to procure the very best seeds on the market we give no guarantee, either expressed or implied. Samples will always be furnished when applied for. If the seeds are not accepted on these terms, we must be notified at once. If they are kept it will be taken as proof that they are satisfactory.

All claims must be made upon receipt of goods.
